

So you want to ban xm from brodcasting the traffic. How stupid is that! You know that we pay to listen to these things. If I have to pay for it I think I should get the best possible advances and stations possible. If you don't think so maybe all of america should ban together to stop paying your wages. Pay you minimum wage and see what you think about trying to regulate americans and their freedoms. Its our given right to do these and you want to stop it, so maybe we should stop you!
